USM AT A GLANCE

1962

Resolution on the establishment of a college university was approved by Penang State Legislative Assembly

7 August
1967

Foundation-laying ceremony by the Prime Minister of Malaysia, Tunku Abdul Rahman Putra Al-Haj

1969

Recognition as a full university with the name 'Universiti Pulau Pinang' (University of Penang)

1971

Relocation from the campus site in Sungai Ara to the new location in Minden (500 acres). After the Universities Act came into effect on October 4 1971, 'Universiti Pulau Pinang' came to be known as 'Universiti Sains Malaysia'

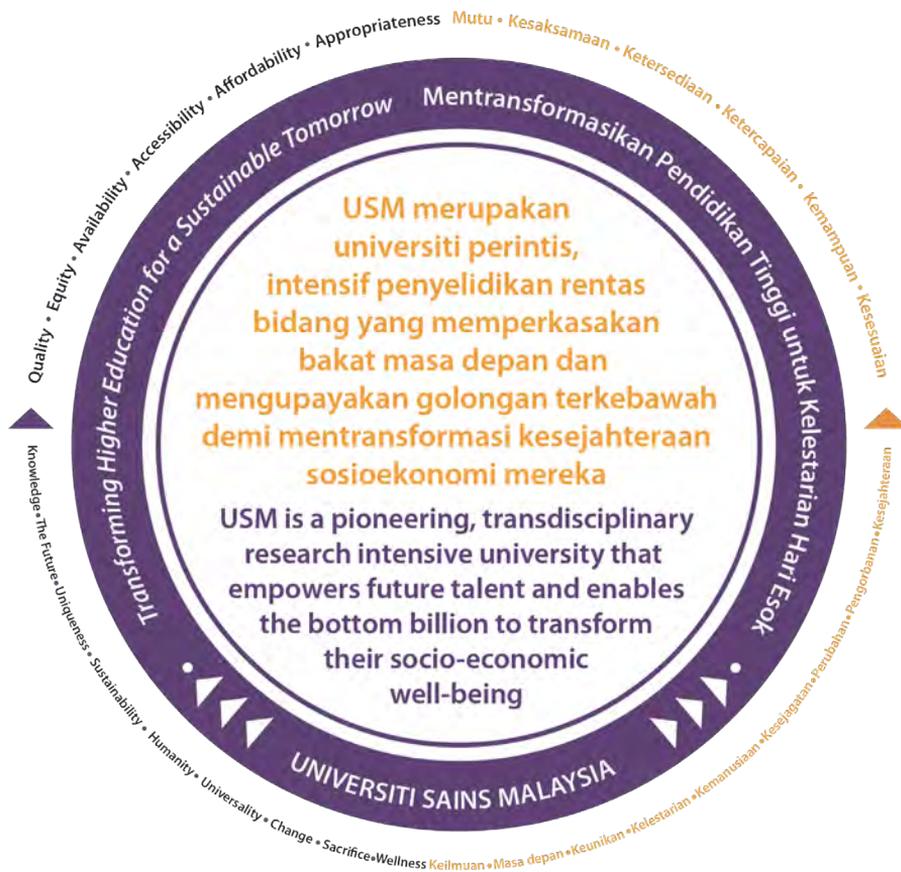

2006

USM attained recognition as a Research University

3 September
2008

USM became the first university to be selected by the Malaysian Government to implement the Accelerated Programme for Excellence (APEX)

MISSION & VISION

Motto
We lead

Vision
Transforming Higher Education for a Sustainable Tomorrow

Mission
USM is a pioneering, research intensive, transdisciplinary university that empowers future talent and enables the bottom billion to transform their socio-economic well-being

Values
Quality, Equity, Availability, Accessibility, Affordability and Appropriateness

Thrusts
The Future, Uniqueness, Sustainability, Humanity, Universality, Change, Sacrifice, Knowledge and Wellness

EDUCATION SYSTEM AT USM

USM has adopted the 'school' system instead of the traditional 'faculty' system. A unique aspect of this system is that each academic school could integrate subjects into the courses which could fulfil the graduation requirements for any given field chosen, while at the same time able to acquire knowledge in other disciplines of study. This multidisciplinary approach ensures that USM graduates would be nurtured and trained to be 'versatile'. USM is the first university to adopt the 'school' system in the country.

USM IS A SMART CHOICE....

- Announced as the first APEX University (The Accelerated Programme for Excellence) in Malaysia.
- Recognised as a Research University that promotes research and development activities.
- Research outcomes by USM are of international repute, as exemplified by the numerous awards garnered in international research meets.
- A campus environment that is harmonious and conducive, practising the concepts of 'University in a Garden' and 'Healthy Campus' (Kampus Sejahtera).
- Multidisciplinary study programmes that are recognised globally.
- Academic and administrative staff that are excellent and of calibre.
- Close relations between the academic schools and the industries, as well as corporate bodies facilitate the flow of details to students with the latest developments in their respective fields of study.

UNIVERSITY IN A GARDEN

The concept of 'University in a Garden' yang applied by USM reflects the close relationship between its role and function as a higher educational institution located within a vibrant garden. Elements such as the flora, fauna, water and other creations in nature are considered as dynamic linkages in the continuous exploration of life. This concept 'invites' everyone to maintain the greenery on campus as part of the intellectual growth effort. We need to develop the desire and practices in safeguarding the campus surroundings, to nurture and appreciate the God-given natural world and the ecology within the hearts and minds of the campus community.

As means to create awareness on these efforts, certain elements need to be given attention. These elements will factor into the development plans for the land, the beauty of the flora and fauna, the lake and its surroundings, the design and architecture, and daily practices of the campus community. These efforts would surely bring about a beauty of its own, in framing the picturesque sceneries of the campus, pleasant and enriched with enthusiasm from the community members. USM would be the enviable model of a life at the university. The harmonious campus surroundings provides the perfect platform for intellectual exchanges in exploring who we are, what do we know and where in life should we go next.

KAMPUS SEJAHTERA (HEALTHY CAMPUS)

The concept of 'Kampus Sejahtera' (Healthy Campus) surfaced from the realisation that the main factor that influences learning is the quality of health and wellbeing of the students within the broader context. Emphasis is given on aspects of spirituality, social, physical, emotional, mental and the environment. This programme also focuses on a healthy lifestyle as the key to acquiring knowledge. Sources of information are prioritised in setting up the provision of services which are integrated.

With regard to that, a portal has been developed, known as the Kampus Sejahtera Portal (kampussejahtera.usm.my) which emphasises general accessibility on the information relating to activities and the documenting on matters on wellbeing. Relevant information has been prepared and is available for reading or downloading at any time.
